

Why are we demonstrating about the HAMILTON ANIMAL CONTROL today?

The Issues:

- Approximately 3000 cats and 300 dogs are killed every year at the Hamilton Animal Control
- No public adoptions offered
- Inconvenient opening hours for people to reclaim their companion animals
- Only 72 hours hold time before killing
- No feral cat program
- No spay and neuter program
- No education program

The Solutions:

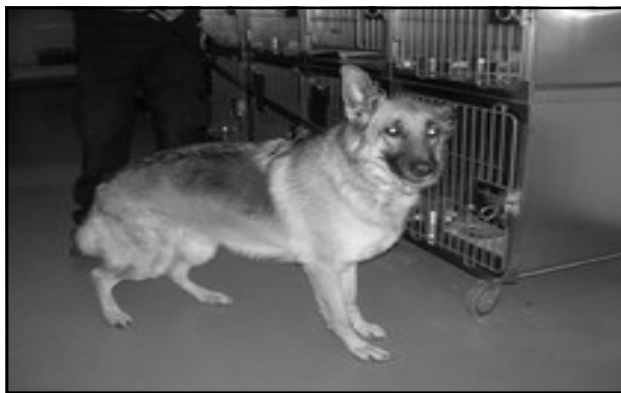

- Open up public adoptions
- Expand network of rescues
- Extend opening hours for working people to reclaim their pets
- Give rescues and individuals more than 72 hours to save lives
- Stop picking up people's pets
- Respond to complaints only
- Trap, Neuter, Return (TNR) program
- Low cost, high volume spay and neuter clinic or rebate program to use with existing vets
- Public education programs, and more
